LIBS Symposium 2025 in Tokushima

Organized by LIBS Society of JSME
(Chugokushikoku Division)

Supported by Japanese LIBS Society

DATE: December 17th, 2025 (14:00~16:30)

PLACE: Tokushima University, Josanjima
Mechanical Engineering Building 3F M310

https://www.tokushima-u.ac.jp/access/shinkura_josanjima.html

14:00-14:10	Opening
14:10-14:40	Ula Putar (University of Ljubljana) <i>Microplastics as emerging contaminants: From environmental risks to state-of-the-art detection methods</i>
14:40-15:10	Kazuyoshi Kurihara (University of Fukui) <i>CO₂-LIBS with neodymium magnetic confinement under He gas environment applied to Li detection in geochemical reference materials</i>
15:10-15:30	Coffee
15:30-16:00	Ayumu Matsumoto, Shinji Yae (University of Hyogo) <i>Porous silicon formation by metal-assisted etching and its application to laser plasma spectroscopy</i>
16:00-16:30	Tetsuo Sakka (Kyoto University) <i>Time evolution of atomic species in LIBS plasma</i>
16:30-16:40	Closing
